COMMONS PARK Denver, Colorado

*declining
industrial
district*

*How do we love the concept for
a 17-acre "central park?"*

- *It's bold*
- *It's beautiful*
- *It pays homage to Madison's past*
- *It's ecologically sound*
- *The cost to taxpayers would be minimal*

Wisconsin State Journal
February 2003 editorial

MADISON CENTRAL PARK Madison, Wisconsin

green infrastructures

AT JONES & JONES:

Using landscape systems design,
we transform brownfields
into viable natural assets.

A green infrastructure is a visible infrastructure
that brings nature along with it
into our communities.

We design community landscapes
ranging in scale from neighborhood parks
to open space networks and regional habitat corridors.
